RV Power Cord & Hose Reels

A complete line of reels for connecting vehicles to utility services. Power reels to take the power to the vehicle, power reels to take power from the vehicle, hose reels to take drinking water to the vehicle and hose reels to take the black/gray water from the vehicle.

Features on all Shoreline Reels include:

- ▶ High quality
- ▶ Compact space saving design
- ▶ Motorized (Handcrank available)
- ▶ Clean and safe
- ▶ Saves space, time and back-breaking energy
- ▶ Easily installs with common hand tools
- ▶ Spool sides and core are anodized aluminum
- ▶ Side frames powder coated galvanized steel

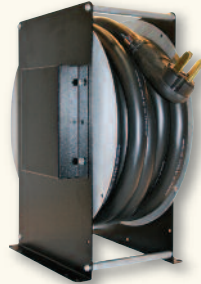

Benefits on all Shoreline Reels include:

- ▶ Smaller than other similar cord or hose systems
- ▶ Free spools off the reel...you only pull off what you need.
- ▶ Push the button and the reel's 12 VDC motor retrieves the cord or hose easily.
- ▶ Can be hung from ceiling or wall
- ▶ ETL Listed
- ▶ One-year warranty

RV Power Cord Reels

- ▶ Non-stiffening, super flexible cords
- ▶ Eliminates tangled and kinked cords
- ▶ Standard 50A cord reels include 4 foot pigtail
- ▶ Optional floor portal and roller kits are recommended for cords exiting through storage compartment floors.

50 Amp RV Power Cord Reels

MODEL CC50D

- ▶ Dimensions: 12"W x 14" D x 16" H
- ▶ Tall and Narrow Design
- ▶ Cord Capacity: 34 feet of 6/3 8/1 flexible cord
- ▶ Optional OEM pigtail is separate from cord set and can be up to 25 ft. long
- ▶ Typically used in Class A and Super C motor homes

MODEL CL50D

- ▶ Dimensions: 17"W x 10.5"D x 11.5"H
- ▶ Low Profile Design
- ▶ Cord Capacity: 34 feet of 6/3 8/1 flexible cord
- ▶ Optional OEM pigtail is separate from cord set and can be up to 25 ft. long
- ▶ Typically used in 5th wheels and coaches with shorter compartments

30 Amp RV Power Cord Reel

MODEL CF30D

- ▶ Dimensions: 16"W x 12"D x 6"H
- ▶ Horizontal spool with flat mounting side
- ▶ Cord Capacity: 40 feet of 10/3 flexible cord
- ▶ Typically used in Class A & C motor homes, travel trailers, 5th wheels & pop-ups

Motorized Cord Storage Reel for Detachable Power Cords

A convenient, cost effective solution for storing your existing detachable cord. No changes to coach's detachable cord electrical system and no vehicle modifications. For use on RV's, trailers and boats with a detachable cord.

MODEL CS12D

- ▶ Dimensions: 17"W x 10.5"D x 13"H
- ▶ Low profile design for installation in low compartments
- ▶ Works with all detachable power cords
- ▶ Cord Capacity: Up to 40 feet of 50 Amp detachable power cord or 75 feet of 30 Amp power cord (power cords not included)
- ▶ Retracts and stores your power cord
- ▶ Simply slide twistlock end into spool drum and push button

RV Hose Reels

Now you can have all your hoses organized on reel systems, eliminating struggles, tangles and dirty messes associated with hoses.

- ▶ Brass rotator and fittings - no plastic parts
- ▶ Hose easily replaced with standard hand tools

40 Foot RV Drinking Water Hose Reel

MODEL CW40D

- ▶ Dimensions: 10.5"W x 11.5"D x 13"H
- ▶ Brings drinking water into the RV
- ▶ Hose Capacity: 40 feet of 1/2" potable drinking water hose
- ▶ Listed for potable water applications
- ▶ Output to coach is 1/2" MPT
- ▶ IAMPO Approved to NSF Standards

35 Foot RV Drinking Water Hose Flat Reel

MODEL CFW35D

- ▶ Dimensions: 16"W x 12"D x 6"H
- ▶ Horizontal spool with flat mounting side
- ▶ Hose Capacity: 35 feet of 1/2" potable drinking water hose
- ▶ Brings drinking water into the RV
- ▶ Listed for potable water applications
- ▶ Output to coach is 1/2" MPT
- ▶ IAMPO Approved to NSF Standards
- ▶ Typically used in Class A & C motor homes, travel trailers, 5th wheels & pop-ups

20 Foot RV Black/Gray Water Hose Reel

MODEL SW20D

- ▶ Dimensions: 10.5"W x 11.5"D x 13"H
- ▶ Retracts and stores sewer hoses
- ▶ Hose Capacity: 20 feet of 3/4" non-collapsible hose
- ▶ Easy connection to macerator pumps
- ▶ Ball valve eliminates caps and plugs

For People Who
Don't Mess Around
with Cords or Hoses.
